

Pilot Programme on Provision of Small Food Waste Composters at School (Phase Two)

Pilot Programme on Provision of Small Food Waste Composters at School (Phase Two)

- **Objective:** To provide 5 kg small food waste composters, education kits and information for educational activities to 100 schools, with a view to cultivating “Food Wise” culture among teachers and students through reducing food waste at source, and demonstrating the recycling of unavoidable food waste into compost for use in planting on campus

Pilot Programme on Provision of Small Food Waste Composters at School (Phase Two)(cont'd)

► About the Pilot Programme – Phase One

- ❖ Launched in 2018 through the Environment and Conservation Fund (ECF)(環境及自然保育基金)
- ❖ 90 participating schools
- ❖ Positive feedback from the participating schools on the use of composter, talks and workshops

Pilot Programme on Provision of Small Food Waste Composters at School (Phase Two)(cont'd)

► About the Pilot Programme – Phase One

- ❖ Education kits and educational materials have been uploaded to the website of the Pilot Programme (<https://www.hd-sfwc.org>) for public access

Pilot Programme on Provision of Small Food Waste Composters at School (Phase Two)(cont'd)
